COLLECTOR: SUNDARGANH

SUNDARGARH DISTRICT AT A GLANCE:

Sundargarh District was constituted on the 1st January, 1948, out of the two ex-States of Gangpur and Bonai, which merged with Odisha on that day. True to its name, this beautiful District of Sundargarh with about 43 percent of its total area under forest cover and numerous colorful tribes dotting its landscape and with abundant mining potential is bounded by Ranchi District of Jharkhand on the North, Raigarh District of Chhatisgarh on the west and North West, Jharsuguda, Sambalpur and Angul Districts of Odisha on the South and South East and Singhbhum District of Jharkhand and Keonjhar District of Odisha on the east.

The Sundargarh town is the district headquarters. Geographically, the district is not a compact unit and consists of widely dissimilar tracts of expansive and fairly open, dotted with tree, clad isolated peaks, vast inaccessible forests, extensive river valleys and mountainous terrain. Broadly speaking, it is an undulating tableland of different elevations broken up by rugged hill ranges and cut up by torrential hill streams and the rivers IB and Brahmani. The general slope of the District is from north to south. Because of this undulating, hilly and sloping nature of landscape, the area is subjected to rapid runoff leading not only to soil erosion but also to scarcity of water for both agriculture and drinking purposes. Brahmani, Sankh, Koel and IB are the major rivers flowing through this District. Covering a geographical area of 9712 SQ. KMs., Sundargarh District is the second largest District of the state, accounting for 6.23 percent of its total area. Out of this total area, forests cover 4232.57 SQ. KMs., this being the second largest in the state, accounting for 8.53 percent of the state total.

Sundargarh District has 3 sub divisions, 18 Tehsils, 17 Blocks and 279 Gram Panchayats and 1779 no. of villages (includes 8 Census Towns and 9 out growths) and 04 Urban Local Bodies. Topographically, this district is located between latitude 21 degree 36' N to 22 degree 32' N and longitude 83 degree 32' E to 85 degree 22' E. The population of this District is 20,93,437, which is fifth most populous District of the state, out of which the rural population is 13,55,340 and urban population is 7,38,097 and the TRIBAL population of the district is 10,62,349, which is more than 50% of the total population. The literacy rate of the district is 73.34%.

The tribal all over the state/country particularly in the area of Sundargarh are known for their performing arts in the form of indigenous tribal songs, music and rhythmic dance. Music and dance forms an integral part of their life and living. The dances and songs of tribal as well as the music they play with their traditional musical instruments are so vibrant and rhythmic that many foreign visitors evince interest to visit tribal pockets only to catch a glimpse of such music and dance. But with changing times, the melodious song, music and dance forms of tribal are in the process of dying out. The tribal people have extra ordinary sports talents, whose reflections are found in their culture and lifestyle also. Many players from Odisha, especially from Sundargarh district like Jerina Tirkey, D. J. ...

Toppo, Asha Kerketta and Anita Kerketta are among several emerging girls from the tribal of Sundargarh district in hockey, who share a dream – they all want to play hockey professionally and represent India internationally just like Dilip Tirkey, Lazarus Barla, Subhadra Pradhan, Jyoti Sunita Kullu and Binita Toppo as done in the past. Padmashree Dr. Dilip Tirkey also captained the Indian Hockey Team. After all, both girls and boys at village level in Sundargarh district are making India proud.

Similarly, so many players both girls and boys from the villages are rising under football game also. It is the time to improve their talents by participating in different tournaments at block, district and National level. Likewise, other sports equipment under cricket, volleyball.

The climate of this District is characterized by extremely hot summers and cool winters. Climate is hot & moist sub humid. Normal rainfall of the District is approximately 1230 mm, but there is a deviation in receipt of rainfall pattern which is influencing crop production.

Sundargarh is recognized as an industrial district in the map of Odisha. Steel Plant, Coal Mines, Power Plants, Fertilizer Plant, Cement factory, Ferro Vanadium Plant, Machine building factory, Glass and china clay factory and Spinning mills are some of the major industries of this District. Sundargarh occupies a prominent position in the mineral map of Odisha and is rich in iron ore, limestone, manganese, dolomite, and fire clay. Major industries are the Odisha Cements Ltd, Hart Fertilizers Ltd, and Odisha Industries Ltd. The industrial town of Rourkela in this District has the first government sector plant built with foreign collaboration and was the first in India to use LD oxygen technology.
